the shock in her eyes  
words that echo my thoughts  
your blood in my veins  
a subhuman roar.  
uh, trash me for my life  
beyond this world that we despise  
uh, you give me such a joy and I -  
I kiss the darkest places  
and you embrace me like a toy.  
the shock in her eyes  
rules that we do not need  
your blood on my cheek  
a subhuman roar.  
uh, trash me for my pleasure  
beyond this world that we despise  
uh, you give me such a joy and I -  
I kiss the darkest places

I wake up in Hollywood. - We use Gemma's roof - It's a moment of reflection but also unrest - I feel as if I've accomplished nothing, I'm not making anything, my work isn't working - I've got to pull it together.

#### A FEW IDEAS FOR POSSIBLE PROJECTS:

##### Abortion Alternatives (tentative title)

- A reality television style film about a pop star (me) deciding to use her baby as a "body work" / site of performance.
- Conflict: child becomes publicity tool - child is never real

##### Say Maybe to the Baby

- A reality short about a woman at Planned Parenthood making a decision about what to do with her pregnancy
- More topical / political / biographical / portrait-y

##### SOMETHING ABOUT A CHILD - arguments with anti-futurity

- arguments with anti-essentialism
- arguments

**IT GETS BETTER PROJECT**  
[WWW.ITGETSBETTER.ORG](http://WWW.ITGETSBETTER.ORG)

One day this kid will get larger. One day this kid will come to know something that causes a sensation equivalent to the separation of the earth from its axis. One day this kid will reach a point where he senses a division that isn't mathematical. One day this kid will feel something else in his heart and throat and mouth. One day this kid will find something in his mind and body and soul that makes him hungry. One day this kid will do something that causes men who wear the uniforms of priests and rabbits, who inhabit certain stone buildings, to call for his death. One day politicians will enact legislation against this kid. One day families will give false information to their children and each child will pass that information down generationally to their families and that information will be designed to make existence intolerable for this kid. One day this kid will begin to experience all this activity in his environment and that activity

ty and information will compel him to commit suicide or submit to silence and isolation. Or one day this kid will talk. When he begins to talk, men who develop a fear of this kid will attempt to silence him with strangling, fists, prison, suffocation, rape, intimidation, drugging, ropes, guns, laws, menace, roving gangs, knives, religion, decapitation, and immolation by fire. Doctors will pronounce this kid curable as if his brain were a virus. This kid will lose his constitutional rights against the government's invasion of his privacy. This kid will be faced with electro-shock, drugs, and conditioning therapies in laboratories tended by psychologists and research scientists. He will be subject to loss of home, civil rights, jobs, and all conceivable freedoms. All this will begin to happen in one or two years when he discovers he desires to place his naked body on the naked body of another boy.

So, I think here I'm really wondering:  
WHAT IS FEMINIST ABOUT ANY OF THIS?

Ke\$ha is a punk but in a detournement for dummies kind of way - like she's a bad influence but I'm still buying her t-shirt.

Glamour might not be a useful framework here, at least not the making-avatar selfie or the mirrored hyperbole. But mimicry is real, Irigaray was right, it's a thing.

NEXT: I want to take control of my body and use it as a prop for the work  
- a dance sequence

# ART #2

SO - I still want to be pregnant in the project. I'm thinking about "my body my choice" yeah, but also, what about pregnancy as symbol? Like a body modification? A pregnancy as accessory, a displacement device... This is the fault of aspiration, I think, a wanting for love and purpose. This is the breaking point of latent potential.

But what is "choice" -?!?!? WHO does that word belong to, really? Whose language is that?

Wanna be a great dark man,  
Being but a lesbian.  
You are perfect, you are sheer,  
If you are a red-haired queer.

That's life, one dies.  
C'est la vie, ma cherie,  
But it really doesn't matter.

No G.D.M.  
No great dark man  
No G.D.M.  
No great dark man

There won't be a great dark  
man,  
If I am a red-haired queer.  
You are perfect, you are sheer,  
If you are a red-haired queer.

Tel Aviv, have a sniff.  
C'est la vie, ma cherie,  
But it really doesn't matter.

Yellow teeth between pink lips,  
Eyeline shadow with a crazy  
look,  
The jewel behind the lobe of  
ear,  
Rouge on my face hides my  
beard,  
Long violet fingernails,  
I adore those magic tales.  
I don't mind, I don't mind.

OKAY so now's the moment.

I have the baby on the moon.

ALACTIC

ALACTIC

I want the future here.  
I want a Hype Williams sound set  
I mean - I actually want the  
dialogue to prompt NASA as  
the creative director

Let's be reasonable though and  
suggest that they denied and  
Virgin Galactic accepted for an  
endorsement deal.  
I'm on their phone plan, I could  
totally be the face of their space  
thing.

We should shoot a highly  
articulated dance scene in the  
ship before we land on the  
moon.

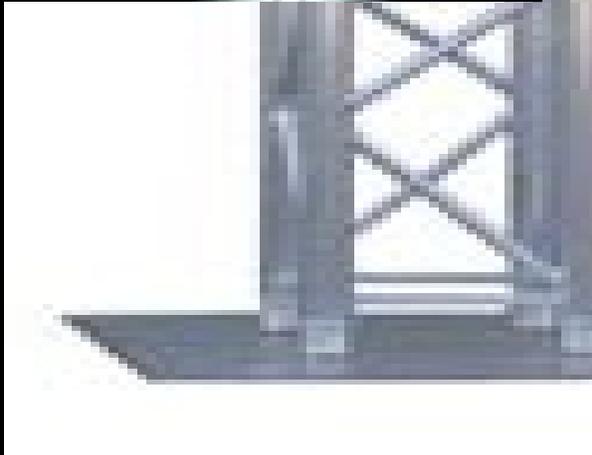

Once on the moon I think I  
should have the baby.

Immaculate conception /  
hysterical pregnancy:  
A gift to the world on a stage  
they can all see and feel.

By this time the performance  
should be clearly read as  
POP DIVA.

The baby moment is reparative,  
I like it, we're both stars.

And we're alone

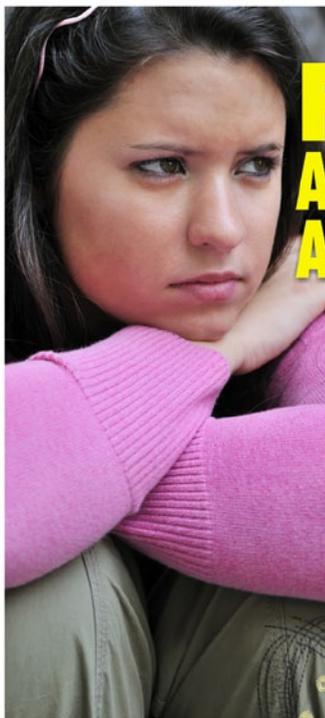

I don't think I have an actual critique.  
Ray of Light was the best Madonna album,  
It's all Lorde's.
